AWS / GCP / Azure

Terraform / Ansible

Kubernetes / Helm

Linux / Bash Scripting

Prometheus / Grafana

Jenkins / GitLab CI

CERTIFICATIONS

- AWS Solutions Architect - Professional
- Certified Kubernetes Administrator (CKA)
- HashiCorp Terraform Associate

LANGUAGES

- Vietnamese - Native
- English - B2 (TOEIC 820)

CAREER OBJECTIVE

DevOps engineer with proven experience designing cloud-native infrastructure, automating deployment pipelines and maintaining 99.9% SLA. Seeking to join a large tech organisation to scale distributed systems further.

WORK EXPERIENCE

VNG CORPORATION - HO CHI MINH CITY

DevOps Engineer | Aug 2022 - Present

- Managed Kubernetes clusters with 200+ nodes serving 10M daily users.
- Authored Terraform IaC modules, cutting infrastructure provisioning time by 60%.
- Designed zero-downtime CI/CD deployment pipelines.

KMS TECHNOLOGY - INTERNSHIP

Cloud Intern | Feb 2022 - Jul 2022

- Supported on-premise workload migration to AWS.
- Set up Prometheus + Grafana monitoring stack.

KEY PROJECTS

Multi-Cloud Disaster Recovery Platform

AWS · GCP · Terraform · Kubernetes · Velero

- Cross-cloud backup & recovery system for enterprise clients.
- RTO < 15 min, RPO < 5 min covering 300 TB of production data.

Internal Developer Portal

Backstage · GitHub Actions · ArgoCD · Helm

- Self-service portal enabling one-click application deployment.
- Reduced new-project onboarding from 3 days to 2 hours.

AWARDS & ACTIVITIES

- Best DevOps Project - VNG Internal Hackathon 2024.
- Speaker - DevOpsDays Vietnam 2023 (topic: GitOps).
- Open-source contributor - ArgoCD Plugins project.
